Town of Annabella

295 East 300 North, P.O. Box 175, Annabella, UT 84711
phone (435) 896-6571 • fax (435) 896-4369

Subject: Sprinkler System Permit & Water Safety

Dear Annabella Water Customer,

To ensure the safety of our drinking water, Annabella Town requires a cross-connection permit before connecting a sprinkler or drip system to your culinary water line, as mandated by State of Utah regulations.

Why This Matters:

- Prevents contamination of our public water supply.
- Ensures your sprinkler system meets state safety standards.
- Helps keep our community's drinking water clean and safe.

What to Do Before Installation:

- Complete the attached Cross Connection Permit Application.
- Submit documentation of an approved backflow prevention assembly.
- Turn in your application to the Annabella Town Office or the Cross Connection Control Administrator.

Annual Requirements:

- Test your backflow assembly every year with a certified technician.
- Send test results to Annabella Town within 10 days to maintain service.

Compliance & Enforcement:

- Water service may be discontinued if backflow assemblies are missing, untested, or bypassed.
- Town officials may conduct inspections to ensure compliance.
- Violations not corrected within 10 days may result in service termination.

We appreciate your cooperation in protecting Annabella's water supply!

If you have any questions or need assistance, please contact
Cross Connection Control Program Administrator, Eric Nielsen at (435-287-7157)
or the Town Office at (435-896-6571).

Town of Annabella – Cross Connection Permit Application
For Residential Sprinkler System Installation

Applicant Information:

- Name: _____
- Address: _____
- Phone Number: _____
